Javascript | Typescript | Node JS | React JS | Next Js | Git | Apollo GraphQL | SCSS | Tailwind | Firebase | Redux

WORK EXPERIENCE

Frontend Developer (Remote)

[Transroute Technology Limited](#)

Lagos State   **July 2022 – Present**

- Collaborated with designers and backend developers to implement responsive and visually engaging user interfaces for web applications.
- Integrated RESTful APIs to fetch and display dynamic data, enhancing the user experience and application functionality.
- Contributed to the migration of legacy code to modern frontend frameworks, resulting in improved code maintainability and user interface enhancements.
- Participated in code reviews, providing constructive feedback to team members and ensuring code quality and best practices
- Optimizing web pages for maximum speed and scalability.
- Utilized version control systems, specifically Git, to ensure efficient code collaboration and maintain a comprehensive project history.

Frontend Developer (Fulltime)

[Spaceet Africa](#)

Ogun State, June 2021 - June 2022

Spaceet Africa is a technological-driven startup with a focus on luxurious service apartments and short-lets rentals.

- Work closely with design and development teams to create elegant, usable, responsive and interactive interfaces across multiple devices.
- Implemented responsive design principles, ensuring seamless user experiences across various devices and screen sizes.
- Turning UI/UX designs into prototypes, creating excellent interactions from designs, writing reusable content modules and maintainability of the code.
- Implement UI development principles to ensure that the product client-side serves at scale.
- Utilized version control systems, specifically Git, to ensure efficient code collaboration and maintain a comprehensive project history.

EDUCATION

Bachelor of Science in Animal Science

Federal University of Agriculture, Abeokuta, Ogun State

June 2014
